

# Vadim Eisenberg

Software Developer, M.Sc. in Computer Science, hands-on, broad knowledge

[Vadim.Eisenberg@gmail.com](mailto:Vadim.Eisenberg@gmail.com) | +972-54-7993919

## EDUCATION

TECHNION - IIT

M. Sc. in Computer Science

2007-2012 | Haifa, Israel

Teaching Assistant for the course

*Introduction to Systems Programming*,

Excellent TA award

TECHNION - IIT

B. Sc. in Computer Science

1996-2000 | Haifa, Israel

GPA 90 (cum laude)

## SKILLS

Software Engineering and Architecture

• Programming Languages • Software Design • Design Patterns • Application Frameworks/Middleware • Semantic Web and Database technologies • Mobile and Web applications • Microservices and Service Meshes

## PROGRAMMING

Java • Go • JavaScript • Python • C  
C++ • Ruby • Swift • Bash • Assembly

## ENVIRONMENTS

Unix • Android • Node.js  
Ruby on Rails • Server-Side Swift  
Kubernetes

## FAVORITE TOOLS

Git • Make • Bash • Ansible •  
GitHub ecosystem: code analysis, code coverage, continuous integration

## LANGUAGES

English (bilingual) • Hebrew (bilingual)  
Russian (native) • Polish (limited working)  
German (limited working)

## BLOGS

posts at [istio.io](https://istio.io)  
[vadimeisenberg.blogspot.com](https://vadimeisenberg.blogspot.com)

## MISC

Marathon time: 3:42:15

## EXPERIENCE

NEUREALITY | Cloud Architect

2023– | Caesarea, Israel

- Composed a road map and architecture of integration of NeuReality hardware and software with Kubernetes
- Implemented device plugins, Calico dataplane driver, operators
- Designed deployment and operation of company's inference pipelines using Helm, ArgoCD, Prometheus, Grafana, Elastic, Kibana, HPA

IBM RESEARCH | IoT Technologies group

2013–2022 | Haifa, Israel

- Development of Hub-of-Hubs prototype for Red Hat Advanced Cluster Management for Kubernetes. Three orders of magnitude scalability improvement.
- Development of Istio Service Mesh, ingress/egress traffic control, multi-cluster/multi-mesh. Contributor #45 to [istio/istio](https://istio.io), #8 to [istio/istio.io](https://istio.io). Consulting a large enterprise on their Istio adoption.
- Development of Kitura - a Swift web framework. Contributor #1.
- Development of Data and Service Layers of IBM MobileFirst iOS apps.
- Development of IBM Rapid Apps.
- Integration of IBM BPM and IBM Worklight.

IBM RESEARCH | Healthcare and Life Sciences group

2010–2012 | Haifa, Israel

- universAAL project. Development of a distributed platform for Ambient Assisted Living applications.
- Various data processing and healthcare products projects.

IBM RESEARCH

Performance Analysis and Optimization Technologies group

1998–2007 | Haifa, Israel

- 2003–2007 Developer and Project Leader. Design and development of FDPR-Pro, a multiplatform feedback-based post-link optimization tool.
- 1998–2002 Part time position (student). Development of FDPR and FDPR-Pro post-link optimization tools.

## PERSONALITY

Passionate about Software Development • Dedicated to execution  
Quick learner • Marathon runner  
Flexible team player • Teacher • Able to work under pressure • Hands-on  
Team Leader • Creative Problem Solver • Blogger
